

HIKE INTO THE MOSTNICA RIVER GORGE

Meeting point: village Ribcev Laz or Stara Fuzina

Duration: approx. 3 - 4h

Equipment needed: good sports or hiking shoes, comfortable sports clothes and jacket, umbrella (in case of light rain), water bottle

Hike: We would meet at the agreed location and from there we would do a walk to the village Stara Fuzina and then do a loop walk through the Mostnica river gorge . During the hike we will cross The Devil's bridge and get to know the legend about it, see a natural rock called "The elephant" and get to know the importance and interesting facts about Triglav National Park. Once we return back to the village we will get to know the typical alpine architecture and the importance of ironworks in the history of Bohinj valley.

Note: If the water is really high the trail through the canyon can be closed. In this case we will find an alternative hike of similar difficulty and duration.
