

**LOCAL COMMUNITY POLICY, HIKEANDBIKE TRAVEL AGENCY, GREGOR ŠILC
s.p.**

HIKEANDBIKE travel agency is a responsible social company. Responsible attitude to the local environment and to the community where we live and operate is one of the main elements that we follow.

We aim for local quality and include in our products and services local suppliers. We are active members of the local community and in order to achieve our goals we plan to work closely with local partners and suppliers also in the future.

From our partners and suppliers we expect top quality products and services at competitive prices, reliable supply and good cooperation. Based on our vision we include in our supply chain local guides and local producers of food, arts, crafts and other products and help as much as we can to the local community and environment. It is very important for us that all our future partners are coming from the local area and they follow and respect similar values as we.
